Forecast for Thursday 17 Aug 2023

Weather: A cloudy day to start with low cloud often shrouding the summits, cloud will lift in the west with some brighter conditions likely but may be persistent in the east around the Angus Glens and Loch Muick munros. Feeling quite warm and muggy at times although strengthening southeasterly winds will help. A few light showers possible for the Perthshire ranges. Cloud thickening and lowering during the evening with some drizzle further east.

Chance of cloud-free hill tops above 800m: 40% improving to 80% in the west, remaining cloudy in the east, falling later in the day to 50%.

Low Cloud and visibility: Low cloud is likely to affect many of the more easterly ranges in the morning with cloud bases scattered or broken above 500m, cloud will lift and thin with many summits clearing west of the A9 towards Loch Tay and Glen Lyon, although persistent cloud may affect the south eastern Cairngorms and the Angus Glens. Later in the day cloud may thicken again around the summits in the west reducing visibility. General visibility will be good throughout the day in the west, perhaps dipping in any showers but good views are likely across the hills, further east visibility will be moderate or poor especially in mist and drizzle.

Met Office Aberdeen Meteorologist's View
A warm day at low level and feeling muggy at times but the strengthening southeasterly winds will make it feel a little cooler.

Forecast for Friday 18 Aug 2023
Weather: Cloudy at times especially in the east but some bright or sunny spells developing in the west and mostly dry. Fresh or strong southeasterly winds may be gusty at times especially for hills in the west. Some light rain or drizzle will spread east by late evening.

Maximum wind: Southeasterly 20 mph with gusts 30-35mph.

Chance of cloud-free hill tops above 800m: 50% improving to 70%, falling in the evening to 30% as cloud and rain spread east.

Low Cloud and visibility: Scattered or broken cloud in the morning above 500m will lift and clear although some eastern ranges will continue to be affected for much of the day. Cloud will thicken and lower during the evening period with some light rain affecting western ranges by late evening with poor visibility here.

Temperature: **Glens:** Plus 11 rising to 18 Celsius.
At 800m: Plus 6 rising to 11 Celsius.
Freezing level: Above all summits.
